INDEX TO VOLUME 54

JULY-DECEMBER, 1906

GENERAL INDEX

A

Construction features of model, *41, *69
s, Concrete, *719
ment for engineering services,

sing at Pittsburg library, 461
ressors:
ny Summit tunnel, *684
River tunnel plants. By Frank hards, *407
ng best results from, 544
or raising water from wells, 243
Double, for tunnel shaft, *66
ing apparatus, *242
Wellman, 218
or power, 170
water supplies, Prevention of wth of, 263
channel, Dredging of, 338
Spiral Pipe Works, *640
Street and Interurban Railway sociation, 422
compressor, *219
Tension tests of steel, with vari- types of end connection. By P. McKibben, 141, *148
s:
ork water supply, 3, *517, 593
Leeds, England, 107

ng of concrete, *376, 393. By P. Howard, 533
Belvidere Electric R. R., *237
East Coast Ry., Concrete, *424
vaka, Ind., bridge, *27
arches, Reinforcement of con- te. By G. L. Marick, 590
Bend, Ind., bridge, *92
also Bridges; Reinforced con- te.)
ling:
n Car shops, *119
fe R. R., *269
f engineering papers, Sugges- for, 400
e race, Mechanical lessons of,

e shops of reinforced concrete etroit, *544
s, Steel for. nvestigations by et, 563
s for enginering purposes,

B

ed d furnaces, 492
spr g and embankment grad- ng m ne, *723
ré S rage Comnission report, 101,
L. C , Cold storage plant. By Henry Torrance, *725
ortland Cement Works, Electrical uipment of, *557
Bethlehem special, 693
also Reinforced concrete.)
capacity of earth foundation beds.
E. L. Corthell, 629, 647
evels, Adjustment of. By S. D. eich, 501
n Steel Co., New structural apes of, *692
ding for excavation work, *22
and oils, Relation between some physical properties of. By A. W. Dow, 185
Blackstone Mfg. Co., Water power plant, *165
Blast furnace charging skip an enclosed steel tube incline, 87
Blast furnace gases for power, 365
Blasting in a business street, 507
Blower for gas furnaces at Aurora, Ill., 320
Boiler house of Birmingham Railway, Light & Power Co., *688
Boilers:
Air-tight boiler room improves draft, 507
Balanced draft furnaces, 492
Coal characteristics as affecting performance of boilers. By W. L. Abbott, 276
Corrosion of plates, 376
Priming caused by poor circulation, 68
Pullman Car Shops plant, *119
Steam raising from gas engine exhaust, 255
Testing, Legal views of, 365
Zinc in, 311
Book reviews:
Adjustment of Observations by the Method of Least Squares. By T. W. Wright, 533
Alternating-Current Motors. By A. S. McAllister, 590
Altitude, Azimuth and Geographical Position. By G. W. Littlehales, 733
Amerikanische Eisenbauwerkstätten. By H. Reissner, 561
Attrition Tests of Road-Making Stones. By Lovegrove, Fleet and Howe, 673
Beton-Kalender, 1907, 561
Brazing and Soldering. By J. F. Hobart, 673
Building and Ornamental Stones of North Carolina, 617
Business Telegraph Code, 589
Combustion and Smokeless Furnaces. By J. W. Hays, 697
Concrete Country Residence, 503
Crisis at Panama. By L. W. Bates, 644
Design of Steel Mill Buildings. By M. S. Ketchum, 533
Economics of Railroad Location. By W. L. Webb, 617
Elastic Arch. By B. R. Leffler, 733
Elementary Principles of Continuous Current Dynamo Design. By H. M. Hobart, 617
Elements of Gas Engine Design. By S. A. Moss, 533
Engineering in the U. S. By Frank Foster, 733
Engineering Work in Towns and Small Cities. By Ernest McCullough, 645
Etude Expérimentale du Cément Armé. By M. Feret, 504
Experimental Engineering. By R. C. Carpenter, 561
Five Figure Logarithms. By H. H. Suplee, 503
Handbook of Mathematics. By O. A. Kenyon, 644
Indicator Handbook. By C. N. Pickworth, 644
Lake Passaic. By C. C. Vermeule, 674
Manual of Hydraulics. By R. Busquet, 589
Monolität der Beton-Bauten. By N. A. Shitkewitsch, 645
Book reviews: (Continued.)
Outline of Practical Sanitation. By H. B. Bashore, 733
Portland Cement. By R. K. Meade, 562
Practical Lettering. By T. F. Meinhardt, 673
Practical Metal Turning. By J. G. Horner, 697
Principles and Practice of Surveying. By C. B. Breed and G. L. Hosmer, 561
Quasi-Public Corporation Accounting and Management. By J. F. J. Mulhall, 616
Railroad curve tables. By R. S. Henderson, 673
San Francisco Earthquake and Fire. By A. L. A. Himmelwright, 503
Soils. By E. W. Hilgard, 697
Steam Turbine Engineering. By T. Stevens and H. M. Hobart, 533
Strength of Materials. By S. E. Sloeum and E. L. Hancock, 733
Stray Currents from Electric Railways. By Carl Michalke, 561
Switchboards. By Wm. Baxter, Jr., 674
Symmetrical Masonry Arches. By M. A. Howe, 589
Text-book of Engineering. By W. R. King, 561
Tunnel Shields and the Use of Compressed Air in Subaqueous Works. By W. C. Copperthwaite, 645
Turbinen and Turbinenanlagen. By Viktor Gelpke, 644
Types and Details of Bridge Construction. By F. W. Skinner, 645
Universal Dictionary of Mechanical Drawing. By G. H. Follows, 733
Water Softening and Treatment, Condensing Plant, Feed Pumps and Heaters. B. W. H. Booth, 561
Brazil, Selling goods in, 339; By W. J. Johnston, 363
Brick:
Manufacture from refuse, Leeds, England, 27
Sand-lime, Plant at South River, N. J., *44
Brick factory of Western Brick Co., *18
Bridge floors:
Reinforced concrete railway, 169
Standards, *210, *211
Bridge shop work by McClintic-Marshall Co., 487
Bridge stresses, maximum, under live load. By R. M. Packard, 279
Bridges:
Bascule, Flushing, N. Y., *525
Bay Ridge improvement bridges, *181
Blackwell's Island, 12, *289, *480
Center-bearing 284 ft. double-track draw span, *147
Chicago Junction Ry., *209
Concrete, Phil. & Read. R. R., *396
Corrosion of steel. By A. C. Barrow, 27; Edward Godfrey, 84; C. E. Shearer, 84
Duluth drawbridge accident, 171, 264
Elevation of 4-track bridge, *409
Elgin-Belvidere R. R., Reinforced-concrete, *237
Elizabeth River, Norfolk, Va., *147
Ferok, India, Erection of bridge, 251
Flushing, N. Y., bascule bridge, *525
Guatemala Ry., *648
Bridges: (Continued.)
Harlem Ship Canal, Replacement of, *116
Kingsbridge, N. Y., Heavy center-bearing draw span, *245
Loading of highway bridges. By A. C. Barrow, 27; C. E. Shearer, 84
Long Lake, Hamilton Co., N. Y., *354
Manhattan, Foundations, 198, *200
Mishawaka, Ind., Reinforced concrete, *27
Miss. River, at Baton Rouge, 2
Miss. River, at St. Louis, 31
Mott avenue bridge, *319
Neshaminy, *398
New Orleans railway bridge. By E. L. Corthell, *569, *611
New York, Moshula Parkway, *690
Newtown Creek, Erection, *658
Nile bridge at Cairo, 588
Pennypack, *396
Phil., Walnut Lane, 537, *543
Phil. & Read. R. R. lines, *396
Poughkeepsie, Replacing viaduct girders, 171, *178
Quebec:
Adjustable connection of anchor-arm lateral system, *728
Anchor arms, *594
Camber adjustments, *298
Falsework at, *258
Handling members in erection of, *325
Notes on fabrication of, 669
Rapid construction of great bridge spans, 282
Reinforced concrete arches, Cracking of, *376
Reinforced concrete, Richmond, N. S. W., 311
Replacing an overhead highway bridge, *319
Rondout viaduct on West Shore R. R., *46
St. Lawrence River, Montreal, 124
Schenectady, N. Y., Reconstructing piers, *384
Shallow foundations, India, 544
Shenango River, Erection of bridge, *180
South Bend, Ind., *91
Southern Ry., 4-span reinforced-concrete arch. By H. C. Harrison, *315
Susquehanna River Reconstruction, *105
Three-hinged concrete arch, Cleveland, 309, *323
Transporter, in England, 91, 448
Buildings:
Abattoir, Model, *6, *41, *69
Apthorpe apartment house, steel work, *203
Bush Terminal Co., *600
Canadian Westinghouse Co., *661
Chicago, First National Bank, *312, *360
City Investing Co., New York, *566, *603
Clark residence, New York, *13
Collapse, in South Framingham, 143
Edison Building, Substructure, *217
Engineering, University of Pennsylvania, *433, *486, *635
Hotel St. Regis, Power plant, *265
Library at Pittsburg, *436, *461, *489, *526, *548, *576

*indicates illustrated articles.

Buildings: (Continued.)
Moving a house from Michigan to Mass. By H. S. Knowlton, *83
Office buildings, Power and heat for. By C. L. Hubbard, 614
Office of Public Roads, *206
Plaza Hotel, New York, *553
Public Service, Milwaukee, *76
Reinforced-concrete:
Cadillac and Packard automobile shops at Detroit, *544
Collapse of, 311
Fairbanks-Morse Canadian Mfg. Co. By I. Kreuger, *580
New York, Construction in, 339
Paper mill at Bogota, N. J., *457
Settlement of, in Tunis. By P. Fountain, *492
Singer building, New York, *261
Traymore Hotel, Atlantic City, N. J., *523
Trinity Annex and Boreel buildings, New York, *482
Trust Company of America, *442, *470, *498, *530
Underpinning, Brewery wall, on rock foundations, *20
United States Express Co., New York, *108
Wall St. and Broadway, New York, *333, 598
West Street, New York, *710
steel, 694, 732
Bunker construction, *8, *9

C

Cableway skip and tunnel car, *685
Cableway system of coal storage, *307
Caissons:
East River tunnel, *32
Reinforced concrete, for tunnel, *340, *377
Righting a tilted pneumatic, for bridge pier, 336
Sealing method, *539
Sinking pneumatic caisson foundation piers with upward reactions, 610
Special, Jersey City, 21
Special pneumatic, *126
Trinity Annex and Boreel buildings, *484
Trust Co. of America, *470
California earthquake, Report of State Commission on. By A. C. Lawson, 62
Camber adjustments made in erection of Quebec bridge, *298
Canadian Westinghouse Co., Works of, at Hamilton, Ont., *661
Canals:
Georgian Bay survey, 599
Chicago Drainage, Evanston and Calumet channels, 59
New York barge, Progress, 357
Panama:
Contract system, 394
Mechanical equipment. By C. W. Burke, *452
President Roosevelt's message, 676, 699
Terms of contract, 446. By Joseph Jackson, 476
Suez, 315
Teltow, 80
Cantilever, Reaction, for sinking caissons, *471
Cape May improvements, *165
Cars:
Derrick, in reconstruction of Poughkeepsie bridge, *218
Derrick, Special, for erecting high viaducts, *654
Photographic, 22
Refrigerator car lines, 269
Steel, for L. I. R. R., *189
Steel, for Penn. R. R., *224
Castings, Direct iron, from blast furnaces, 87
Cement:
Composition of Portland, 537
Decomposition of cements in sea water, 356
Permeability of cement mortars to water under pressure. By J. W. Ellms, 467
Testing at University of Pennsylvania, 433
Waterproofing. By H. J. Livingston, 308
Cement for fastening iron to marble, 280
Cement laboratory, University of Pennsylvania, *486
Cement works at Bath, Pa., *557
Central stations. (See Power plants.)
Chalmette docks, *88, *125
Chemical engineering in the packing house, 502
Chesapeake Bay, Building of island in, 49
Chimney gases, Removal of dust and smoke from, 272
Chimneys:
Brick, in San Francisco disaster, 11
Cement mortar linings for steel. By Thos. Griswold, Jr., *168
Concrete and tile, Witt, Ill., *670
Rapid reconstruction, 208
Straightening a 250-ft. chimney, *727
Churches, Warming and ventilation of. By C. L. Hubbard, *724
Civil Service and the engineer, 3
Clark, W. A., residence in New York, *13
Cleaning waste and wiping cloths, 469
Clinker coolers at cement works, *557
Coal:
Anthracite, in Canada, 54
Burning methods for small anthracite. By E. H. Peabody, 294
Burning of washer slate and coke braize. By C. G. Atwater, 577
Characteristics of, as affecting performance of steam boilers. By W. L. Abbott, 276
Purchase of steam coal. By W. M. Booth, 326
Storage of, in pits, 390
Supply of coal in the U. S., 619
Testing of. By A. Bement, 473
Coal consumption, Novel measurement of, 657
Coal handling:
Abattoir, Model, 70
Cableway storage system, *307
Chic. & West. Ind. Ry., 372
Coaling station at Purfleet, England, 320
Library at Pittsburg, *527
Pullman car shops, *119
St. Regis Hotel, *267
Coal mining by open stripping in Penn., 87
Coal-tar industry, American, 421
Coal-tar paint, 112
Cofferdams:
Building foundations, *472
Florida East Coast Ry. work, *424
Placing concrete seal in, *426
Coke braize, Burning of. By C. G. Atwater, 577
Coke clinker filter-beds at Kingston-on-Thames. By Douglas Archibald, 323
Cold storage. (See Refrigeration.)
Columns, Cast iron, 255
(See also Reinforced concrete.)
Compressed air locomotives, *390
Compressed air method of raising water at Preesall, Lancashire, 243
Compressed air used for floating wrecked ship, 672
Concrete:
Building blocks, Tests of, at Iowa State College, 535
Cracking of arches, *376, 393; By C. P. Howard, 533
Expansion joints in. By W. H. Foster, 698
Finish of plain surfaces, 366
Frozen, 675
Injury to concrete by water, 658
Laboratory experimental results, 115
Puddling effect of water flowing through concrete, *236
Strength, Influence of tamping on. By H. Burchartz, *332
Tension and compression tests at Columbia University, *643
Tests at Watertown Arsenal. By J. E. Howard, 54, 57
Tests of bond between concrete and steel, 694, 732
Tests of shear in, at University of Illinois, 648
Thermal conductivity and effect of heat upon its strength and elastic properties. By I. A. Woolson, *74
Water-tightness of, 226
(See also Reinforced concrete.)
Concrete mixing:
Chalmette docks, *89
Methods of handling concrete, 589
Pittsburgh filter plant, *714
South Bend, Ind., 91, *94
Trestle construction, *155
Contact beds. (See Sewage purification.)
Contractors, Scranton, Pa., troubles, 384
Contractors and engineers, Joint responsibilities, 366
Contractors' plants:
Depreciation of, 646
Equipments and methods of, 85
Long Island City, *67
Southern Ry. bridge, *316
Contracts:
Awarding, to high bidders, 37, 419
Compensation for extra work, 441
Good building contract forms. By Theodore Starrett, 504
Panama canal system, 394
Percentage or like basis, 421
Corrosion of steel bridges. By A. C. Barrow, 27; Edward Godfrey, 84; C. E. Shearer, 84
Cost accounts. By James Marwick, 547
Cranes:
Handling concrete fence slabs, *546
75-ton gantry, 541
140-ton floating, 187
150-ton tower, 164
Crank mechanism for single-acting engines, *128
Cuba, Municipal engineering in, 338
Culverts:
Concrete, *721
Concrete pipe, 688
Concrete tile, in Ontario, 403
Reinforced concrete, *156
Cylinder cooling in the alcohol engine, 87

D

Damp resisting paints. By J. B. Clermont, *139
Dams:
Alamosa, Colorado, *691
Ambursen, *679, *681
Blackbrook, Loughborough, England, 585
Bonding sections of, *368
Cross River, Award of contract to high bidder, 37
Holyoke, Mass., *285
Hydraulic-fill dams, 505
Masonry, at Swansea, England, 255
Masonry, Mysore, India, 588
Miss. River, at Des Moines, 139
Reinforced concrete, at Dayton. By E. Balbach, *590
Roosevelt, 408
Temporary, at Dayton, Ohio. By Edward Balbach, *534
Terrace hydraulic-fill, Colorado, *691
Wachusett, *374
Depew Place excavation, *22
Derrick cars:
Reconstruction of Poughkeepsie bridge, *218
Special, for erecting high viaducts, *654
Disinfection as a means of water purification. By G. C. Whipple, 94
Docks:
Cut from solid rock, 325
East coast of England, 288
Lowering a masonry sill, 152
Port Chalmette, La., *88, *125
Draft, balanced, 492
Draft-recording gauge, 464
Drainage methods on the Penn. R. R., *559
Drainage works in Glasgow, 124
Dredge, Counterbalanced, 410
Dredge, James, 308, *575
Dredge bucket arms, Welding, by Thermit process, *235
Dredging in Ambrose channel, New York, 338
Drill points, Recovering lost, 76, 492
Drill rods, Magnetization of diamond, 530
Dry dock on Puget Sound, 157
Dust removal from foundry tumblers, *670
